Bechtel Jacobs Company I

DOE Contractors' ORACLE U
Group Meeting

Status Update

April 25, 2000

Denver, Colorado

Bechtel Jacobs Company I
ORACLE Usage – Current St

- Currently

  - Implemented fairly basic configuration within
    Version 10.7 character.

- ORACLE Modules in Use:

  - General Ledger
  - Accounts Payable
  - Purchasing as the Front End to Accounts Paya
  - Custom Labor Module
    (from Corporate Parent Company)

- No additional modules are planned for imple
  foreseeable future.

Bechtel Jacobs Company I
ORACLE – Future Plans

- Plan to increase degree of integration/interfac upstream and downstream systems.

- Moving slowly due to hodge-podge of applica

  - Procurement uses a B-Trieve based purchasin

  - Time and Attendance application is site-legacy

  - HR/Benefits/PR program is Cyborg (which is b ORACLE database), and

  - Performance Reporting System also site-legac (built on ORACLE database).

Bechtel Jacobs Company I
ORACLE – Future Plans (Con

- Expect to upgrade to Version 11 (Spring 200

  - Mainly driven by ORACLE's cessation of supp
    Version 10.7.

- Note: Extremely happy with stability and perfo
  Version 10.7 character.

  - Could have remained at this level for at least tv
    years.

Bechtel Jacobs Company I
ORACLE Status Update - Sun

- Operation is viewed as pretty smooth. No ma
  are planned.

- Seeking to understand all aspects of ORACL
  with intent of improving our business process

- Areas for Improvement:

  - Better mechanism for handling the work-off of t
    end accruals, and

  - Determining whether ORACLE's encumbrance
    functionality will meet our needs.
